## In School and After Schol Program Services K-12 Grades | Year Round

OYC Miami provides in-school services in 17 schools across South Florida. A dedicated OYC team works directly inside these schools during the school day. This team tracks and monitors students' academic achievement, attendance, and behavior, and serves as advocates, mentors, and accountability partners for students, parents, and school administrators.

Following the school day, OYC Miami offers structured after school programming throughout the school year. Students participate in age-appropriate activities at OYC's main site or at partner school locations. Programming serves Elementary (K–5th), Middle School (6th–8th), and High School (9th–12th) students, and transportation is provided to ensure safe and reliable access to programming.

During after-school programming, OYC provides comprehensive support services. Students receive a hot meal and snacks, along with academic support, recreation and wellness activities, enrichment programming (including visual arts, music, performing arts, dance, and STEM), exposure trips, health and wellness sessions, and college and career readiness activities.

Across all program elements, staff prioritize building strong relationships with students and families while supporting each student in working toward their individual goals.
